Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 29-42 is/are pending in the application.
- 4a) Of the above claim(s) ____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) ____ is/are allowed.
- 6) ☐ Claim(s) ____ is/are rejected.
- 7) ☐ Claim(s) ____ is/are objected to.
- 8) ☒ Claim(s) 29-42 are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on ____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

Claims 29–42 are pending.

Election/Restrictions

This application contains claims directed to more than one species of the generic
5 invention. These species are deemed to lack unity of invention because they are not so linked as
to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- prevent and/or reduce a hangover;
- prevent and/or reduce face flushing;
- 10 prevent and/or reduce fatigue;
- improve sleeping;
- prevent development of non-insulin dependent diabetes;
- prevent and/or reduce the development of atheroscleropathy;
- lower blood pressure;
- 15 prevent and/or treat drug-induced toxicity;
- lighten skin;
- reduce inflammation.

Applicant is required, in reply to this action, to elect a single species to which the claims
shall be restricted if no generic claim is finally held to be allowable. The reply must also identify
20 the claims readable on the elected species, including any claims subsequently added. An
argument that a claim is allowable or that all claims are generic is considered non-responsive
unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP

5 § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:
claims 29–42 correspond to the species

10 The following claim(s) are generic: claim 29.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: In order for the species to have unity of invention it is
15 necessary that the inventive concept be a contribution over the prior art. The inventive concept is a mixture of peptides comprising at least 6.5%wt cysteine. Mallee (U. S. Publication No. 20020090670) discloses a mixture of peptides having a cysteine content between 7-20 w/w % and the use of the preparation as active component in a medicament, especially for the treatment
20 of conditions mediated by oxidative damage and for the elevation of cellular glutathion levels in the human or animal body. See the Abstract. Therefore, the species cannot be considered novel or cannot be considered to involve an inventive concept. Therefore, the species do not fulfill the requirements for unity of invention.

Applicant is advised that the reply to this requirement to be complete must include (i) an
25 election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election
30 shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
